WINTER 2022-2023

PRESS KIT

01 Samoëns, the authentic resort

Samoëns in winter, in figures

7 mountains: the summits that surround the village, and that gave their name to it and its inhabitants, the Septimontains, accommodation for **25,000** people, **2,400** of whom live in the area all year round

62 ski lifts, **19** fun zones, **6** free ride zones & **139** ski slopes – **265** km of runs

1 of the largest areas in the Alps for beginners

A pioneer for skiing: **1912** - international ski jousts

1951: first ski lift at Samoëns

16 cross-country ski tracks, i.e. **69** km of tracks, **15** snowshoe routes - **60** km

27 hotels and residences, **3** holiday villages & **3** guest houses

1 semi-outdoor Olympic skating rink **9** chapels

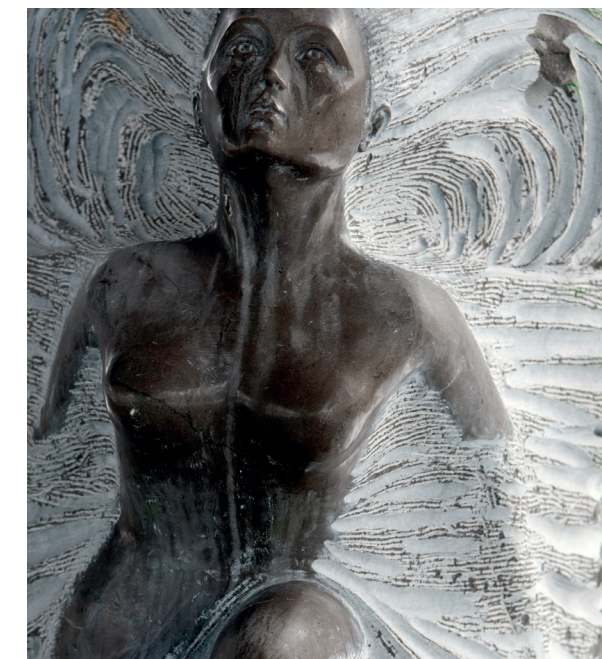

1 hour from Geneva, **2.5** hours from Lyon

Altitude **720** m to **2,500** m

Nestling at the heart of the Grand Massif ski area, one of the biggest developed ski areas in the French Alps, and less than an hour away from Geneva, Samoëns will make your holiday unforgettable next winter. A great place for relaxing and resting, the historic village of Samoëns, its nearby hamlets and its wide valley with splendid hidden treasures are the ideal spot for spending a few days far from the bustle of towns and their crowds. **In 2021, Samoëns was selected as the most beautiful village in Haute-Savoie!**

The historic centre can share with you its heritage and its renown over almost a thousand years, during guided tours organised by the heritage guides. With its church square, its big lime tree and its covered market, the old part of town and the modern town centre are just some of the riches of the septimontain heritage ready for you to explore. They bear witness to a past that is steeped in history and full of tales, with the “Frahans” (the name given to the stonemasons), who came from the region, and whose chisels left their mark on the village, and the old farms that hark back to the peasant activities in bygone centuries.

The small village at the foot of the Criou, the mountain that gives Samoëns its identity, nestles in a wide open valley with a flat floor that features summits 3,000 metres high at its end: Giffre Valley. It is a fascinating natural combination of village tranquillity and the intensity of the surrounding scenery. There are also its inhabitants, the Septimontains, named after the seven mountains that are grouped around the village. A history of deep roots, even generational for some Septimontains, who wouldn't leave the area for the world. An authentic mountain village, but one that has nonetheless opted to open up to the world and to tourism, with lots of things going on, built on busy trades and shops.

So Samoëns is much more than a ski resort, it is a village that is full of life all year round, to ski “off the beaten track”!

02 What's new this winter?

NEW SAMOËNS VILLAGE MMV CLUB RESIDENCE ****

In the heart of the village, the very latest MMV group Club Residence has just opened, and it will welcome its first winter holidaymakers as from next 17 December! From the residence, there is easy access to the “Grand Massif Express” cable car, which serves the Grand Massif ski area. The 102 warm apartments are elegantly decorated and they feature balconies to make the most of the sunshine until the end of the day. The residence, which is built like a chalet with stone and wood, was awarded the “Silver Pyramid” prize for its low-carbon building design. On arrival, you can discover the warm ambience of the big living room with its central fireplace and its bar area where you can get together with the “MMV leaders” every evening! After a long sporting day, you can also relax in the pool area with free access, featuring a heated indoor-outdoor pool, and an indoor sauna and hammam, together with an outdoor hot tub. For further relaxation, there is a spa with a dedicated team to advise you as to the very best care.

From €749 per week – you can find out more at mmv.fr

THE SKI PASS IS FREE OF CHARGE FOR CHILDREN UNDER 8 YEARS OF AGE THIS WINTER!

At Samoëns, the area for beginners is located in the upper part of the resort and it provides breath-taking panoramas. Downhill skiing lovers will appreciate the wide variety of runs; they are wide, amusing and have a reputation for always being well prepared. And there's a new feature this year – ski passes free of charge for children under 8 years of age and adults over 75 (on presentation of documentary proof), whereas most resorts only grant free passes to children under 5 years of age!

SAMOËNS IS STAGING THE ICE SWIMMING WORLD CHAMPIONSHIPS

This fast-growing activity for experienced sports lovers will take pride of place during the coming World ice swimming Championships in the Lac aux Dames, at Samoëns! In fact, the resort is used to staging the French championships for the activity, as it did in 2020 for example; Samoëns is to stage the 5th edition of the World Championships from next **12 to 15 January**. The competitors (600 swimmers from 33 countries) will race in the lake waters (under 5°C) in the knowledge that Neoprene wetsuits are banned! All the swimmers will thus be wearing swimsuits, in the pure tradition of ice swimming. It is also to be noted that the key race in the competition is over 1,000 metres.

And for foodistas.....
3 new addresses to discover!

THE ACCORDEON RESTAURANT, A UNIQUE CONCEPT

A few months ago, Marie-Paule took up the challenge of opening “The Accordeon, bistrot canteen”. A place like no other. The place, in the centre of Samoëns, provides an alternative to ordinary aperitifs by proposing a fine selection of wines, local beers, fruit juices, etc. It is open all year round and all day, and its team can serve you a range of snacks! You can find sweet or savoury snacks to taste and share. The surroundings are ideal for relaxing, making the most of things or even working! A real living space where events, meetings and cosy concerts are held regularly.

FABIO GROCERY AND CAFE SAMOËNS

A friendly new place where you can go to taste delicious tapas, while drinking some good wine or some good local beer. The Fabio also provides gift baskets, panettones, pandoros, chocolates, and a range of sweet and savoury products to discover throughout the winter in the grocery corner of the restaurant.

AU RELAIS SEPTIMONTAIN

The Relais Septimontain has been fully refurbished with a new decor inspired by contemporary tastes, using wood and stone. The really original aspect lies in the presentation of plates and dishes, which are all home-made! You can choose from: medieval “Land & Sea” brochettes: country beef with bacon and gambas cooked on spits, moelleux du Revard cheese, fondue with three cheeses, prosecco and Verpes de Bohème mushrooms... And lots of other dishes to enjoy!

03 Samoëns, a green future

CONCRETE ACTIONS TO PROTECT THE ENVIRONMENT, RIGHT FROM THIS WINTER

Well-being and health stem mainly from the environment. The village resort of Samoëns has fully grasped the fact and it is taking several steps with the aim of preserving the environment via a major issue: looking after the fine “Nature destination”.

Here are some examples of actions taken:

-Sensors will be installed in the village to make precise measurements of the quantities of fine particulates and take actions in the light of the results found.

-Two public electric recharging stations are provided to enable recharging of electric vehicles.

-The municipality has acquired electric tools and vehicles to meet almost all its needs.

-The most polluting heavy vehicles that are used to clear snow in winter or transport equipment in summer comply with the latest environmental requirements.

RENOVATED ACCOMMODATION AND BUILDINGS

The energy performance of buildings is a serious matter, all the more so in ski resorts, where climatic conditions can be extreme at times. In Samoëns, accommodation and buildings are being renovated, to enhance user comfort while saving energy resources.

To give an example, the new MMV residence has further strengthened these new principles. It was built under the new set of specifications for the brand, based on preservation of resources and limitation of the impact on the environment; Samoëns Village translates the CSR strategy that the group wants to implement in all its facilities. The building was awarded the “Silver Pyramid” prize to recompense its low-carbon building design during operation, with an energy performance that meets the RE 2020 objective, thanks to a dual-flow ventilation system in the apartments and production of hot water for the bathrooms via a heat pump, all piloted via a building management tool.

ENCOURAGING GREENER TRAVEL

Transport accounts for 60% of holidaymakers’ carbon footprints when they come by car. To lower that share, the actors for the resort propose regular free shuttle buses to travel round the resort once the holidaymakers have arrived there! All ski-bus lines are free. They provide easy access to the ski slopes, whatever the accommodation used in the resort.

As it is fully aware of the fact that road transport accounts for 50% of the carbon footprint for a stay, the MMV group is also committed to supporting the deployment of more sustainable mobility and hence provides 20 recharging stations for electric vehicles and a cycle park.

THE ORIGINE GRAND MASSIF LABEL

This quality label is included in the Green Globe label, and its purpose is to enable visitors to live authentic experiences enriched by opportunities to meet the key players in the area. The aim of the label is to provide backing for the local economy by highlighting its

knowhow.

In Samoëns, we can mention: A la Jaÿsinia, Gaec Le Criou, C..., Les Z’ateliers d’M.A, L’Atelier de Puce, Pierre BIANCO, PopCorn Vintage, Didier PASSAQUIN, who have obtained the label!

THE SKI AREA IN A CONTINUOUS IMPROVEMENT INITIATIVE

The Domaines Skiabiles de France (French ski areas) have signed a charter setting out 16 eco-undertakings, aimed at reducing the impact of the activities in many fields: eco-driving for vehicles, optimisation of ski-lift opening hours, reasoned production of artificial snow, waste processing.

As from the autumn of 2016, the Grand Massif has become the first ski area in the world holding Green Globe certification for all its ski lifts, its slopes and their associated services. There are many examples: piloting, unique in France, of an environmental observatory implemented in 2008 and covering an area of 1,400 hectares spread over 5 municipalities. Its purpose is to draw up exhaustive lists of biodiversity in all its forms (scenery, fauna, flora and specific biotopes), follow up on its evolution on a factual basis, find solutions to preserve or restore land and preserve sensitive areas referenced in the environmental observatory.

New

The Grand Massif ski area will only print small quantities of its ski run plan this winter! It will be sold for €1 and the proceeds will be handed over to associations – the purpose here is to preserve our planet and put a stop to waste! The plan will also be available on the Grand Massif application.

04 The Grand Massif ski area

Open from Saturday 17 December 2022 to Sunday 16 April 2023

Located in the heart of Haute-Savoie (74) between Geneva and Chamonix, the Grand Massif is the fourth largest ski area in France. It covers 7,600 hectares and features 139 slopes and 265 km of runs. Linking the Flaine, les Carroz, Morillon, Samoëns and Sixt-Fer-à-Cheval resorts, the Grand Massif gives you a unique opportunity to ski facing the Mont-Blanc in magnificent scenery, with a 360° panorama of the Alps chain.

SAMOËNS 1600, ONE OF THE BIGGEST AREAS FOR BEGINNERS IN FRANCE

Many people first started skiing at Samoëns. With its gentle, reassuring slopes, the septimontain area provides inexperienced skiers with one of the biggest areas for beginners in Haute-Savoie.

What are its key advantages?

- 1 access via the Grand Massif Express cable car, ideal to overcome the fears of the first run from a chair lift or a surface lift
- No stairs to climb: the worry for inexperienced skiers with their helmets on their heads and masks on their eyes, ski boots on their feet, poles in one hand and skis in the other
- 1 space specially for families: with a children's garden, a play area and toboggan run
- 7 easy ski lifts
- 1 covered magic carpet to go up the slopes
- 1 Septisnake and The Mysterious Forest of ZiZiPanPan to enable beginners to have fun
- 1 special beginners' pass
- Restaurants and cafes at the foot of the slopes to watch your children while they are skiing.

05 Samoëns, Nordic version

AND FOR ENTHUSIASTS OF... CROSS-COUNTRY SKIING!

Cross-country skiing at Samoëns is a major aspect of winter sports in Haute-Savoie. As it can be both a gentle activity and a sporting one depending on your preferences, cross-country skiing provides a good alternative to other snow sports and it allows everyone to enjoy a fine day in the snow. With more than 50 kilometres of groomed, maintained tracks, depending on your level, you can ski along the Giffre valley or the high altitudes of the Col de Joux Plane.

The Haut Giffre Nordic domain

GIFFRE VALLEY SECTOR

The Samoëns cross-country ski area is right next to the village centre! There are numerous access ways that enable you to park alongside the tracks before putting your shoes and skis on. The tracks are accessible for skating or classic techniques, to take you along the Giffre, between villages, forests, plains and lakes. The area is ideally suited for families, beginners, and also confirmed skiers who can make full use of the many tracks and loops to cover good distances in fairy-tale decor!

JOUX PLANE SECTOR

In the heart of the exceptional Joux Plane area, located in the high parts of Samoëns, you will have a grandstand view of a breath-taking panorama. The magnificent Giffre valley and the Mont-Blanc massif open up before your eyes, for your greater enjoyment. While skiing, you can make the most of a unique moment, in the midst of Nature, on tracks groomed for skating and classic skiing.

06 Families

In the heart of the Alps and the Grand Massif ski area, the village of Samoëns can welcome the whole family to make their stay memorable. Activities, events, shows, everything is ready for youngsters and adults alike. Make the most of mountain fun this winter for the whole family!

IN THE SNOW, ON ICE, IN THE AIR AND EVEN ON THE WATER

Samoëns enjoys an exceptional environment located in the heart of the mountains, crossed by rivers and with forests of snow-covered trees, to have great fun as a family! Samoëns proposes a programme of sports activities that will delight your children, whatever their ages. Downhill skiing, ice skating, e-fat bike, first flights in a two-seater paraglider or rafting down the Giffre River, there is plenty to do this winter to suit all tastes and all desires.

HUNDREDS OF ROUTES THROUGH THE HEART OF THE ALPS

The mountains of the Alps are endless play areas. To enable you to discover the secrets of Nature around the village, Samoëns proposes marked trails for your family walks. There are many different lengths and levels of difficulty, to ensure that all members of the family can find a walk to suit them. When exploring the hidden treasures around the village in Haute-Savoie, you may be lucky enough to see some animals. If you like, you can make the most of the hikes accompanied by medium-altitude mountain guides (igloo trip, evening in a mountain chalet, searching for mouflons, astronomy evenings, etc.).

SOME WARMTH FOR CHILDREN AND ADULTS ALIKE

What about taking advantage of your trip to Samoëns to find out more, while nice and warm, about the wonders of the village? Visits to farms, cinema, yoga game or well-being massage for children, Samoëns has drawn up an indoor programme for you that is every bit as exciting as outdoors. The activities are specially designed for adults and children alike, and there can be no doubt that they will leave all members of the family with some great memories.

Family offer Offer only available online!

If you book at least 3 days before you arrive, you can have a 10% discount on the cost of 4 to 6 GRAND MASSIF passes for 6 to 14 consecutive days
Pack: 2 adults* + 2 children**
Pack: 3 adults* + 1 child**
Possibility of adding up to 2 children to the pack of your choice.

*Adults (16 to 74 years of age)

**Children (5 to 15 years of age)

FOR A HASSLE-FREE FAMILY STAY

To make family stays just perfect, Samoëns has reserved some services specially thought out for families. A baby equipment hire service is available for parents who need it. A babysitting service enables parents to make the most in their turn of the pleasures of Samoëns and its surroundings, while being sure that their child or children are in good hands. For families who so wish, a little train can take them to the Samoëns cable car, enabling them to reach the tops of the ski slopes and go down them as they like.

07 An adventure means nothing less than an adventure

“Great Nature” accommodation for an unforgettable experience!

BOSTAN REFUGE

Situated at an altitude of 1,763 m, way above the municipality, the Bostan refuge is a place that can welcome all hikers. The refuge was built in the early 1980s, and it has been evolving ever since. This fine big wood chalet is now a welcoming, comfortable, friendly place in which it is pleasant to spend some time. It has sleeping room for 72 people, and it features a pleasant, sunny terrace; the refuge and its team can provide you with accommodation and meals in the summer and winter alike. Some people may like to stop at the refuge for lunch and share a pleasant moment with friends or with the family, while others can make the most of the refuge to spend a pleasant night on half-board before moving on to another big target on the following day.

The refuge is easy to access (2 hours) and the path is marked. An easy walk on snowshoes or cross-country skis.
Price : 1/2 board 47€ - Full board 59€.

MONT-PLAISIR ALPINE PASTURE CHALET

Have you always dreamed of having an exceptional stay, far from humdrum everyday life? At the Mont Plaisir chalet, you can experience an unusual stay as a family or with friends, in the midst of Nature, well away from all the hassle of everyday life. The ecological chalet is an ideal place to unwind during your next adventures on the paths of the GR5 trail. It is accessible on snowshoes or on cross-country skis, and it can accommodate up to 8 people, with all modern conveniences in careful respect for its environment. Nestling at an altitude of 1,400 metres, the Mont Plaisir chalet invites you to unwind in the midst of Nature. If you are fond of walking, cross-country skiing, reading or playing board games by the fireside, the alpine pasture chalet is just right for you.

Ascension time on snowshoes or cross-country skis: 30-40 minutes. Your extra luggage can be brought up on a snowmobile.
Weekly price from 1800€. 130€ per night for 2 people (minimum 2 nights).

5 original activities to discover this winter

FROZEN RIVER

Nunayak recently launched the first winter downriver product in France. The run can be made throughout the winter by adapting the equipment (raft, canoe, kayak, etc.). It can be combined with a half-day of skiing with the 360 international ski school! The idea is to extend a summer activity, rafting, to make it a year-round activity. The activity has been carried out in the summer for over 30 years.

“Frozen River” trip: run down the Giffre with all the necessary equipment and transport. Cost: €55 per person (minimum 4, maximum 6).

“Frozen Day” trip: off-piste ski trip or trip round the Grand Massif and arrival at Sixt, run down to Samoëns via the river (ski safety equipment, river equipment, transport for people and equipment included). Inclusive price: €145 per person (minimum 4, maximum 6).

Exclusive: “Adventure” trip with meal and sauna before the run down to Samoëns, Cost: €185 per person (minimum 4, maximum 6).

08 Press the pause button!

Mountain holidays also provide an opportunity to unwind, give yourself some time and above all, take care of yourself. Samoëns has thought about you and can provide you with solutions to help get your mind off things and recharge your batteries: Afghan walking, ayurvedic massage, yoga for children, skin care, etc.; all you need to really unwind and experience absolute well-being for a while. And for contemplative natures or history enthusiasts, just take the time to explore the village!

What can you do in the village in winter?

GUIDED TOURS

Guided tours with Savoie-Mont-Blanc heritage guides provide an opportunity to find out about the home town of some famous sculptors. An open-air book that you can go through to discover the history of art, evolutions in religious, cultural and political ideas of a village well ahead of its time. The guides can also suggest other original ways to learn about the heritage of Samoëns: a trip around the Savoyard village in a little train, with commentaries: by taking the path of the sculptures or by visiting the various hamlets of Samoëns (chapels, traditional farms, granaries, etc...).

Price: Adults: €6, Children: €5 (free for children under 12 years of age).

Well-being aspects

Be it summer or winter, when you are on holiday, you want to take your time and be pampered. So take off your skis or your walking shoes and let yourself go by feeling the pleasures of a well-earned rest to recharge your batteries for the rest of the year! Take your time... in expert hands, of course!

AFGHAN WALKING

Synchronise your breathing with the rhythm of your steps for regenerative walking. A relaxing, almost meditative experience. Considered as "active meditation", Afghan walking, which was first developed by nomads on the high plateaus, combines unwinding, relaxation and enhanced management of efforts in the mountains. With the help of a few breathing exercises, you are encouraged to walk faster and further without getting tired.

With Quintessence – female mountain guides
Adults: from €25.
Information and bookings on www.nature-quintessence.

YOGA IN THE COLD

Yoga in the cold was mainly developed by the Tibetans in the Himalayas under very hostile conditions. Energy yoga helps to develop body awareness and breathing capacity, and it is mentally soothing. During a walk on snowshoes, we can activate our breathing, contract our muscles, and rub our body to activate inner heat. These are all tips to reconnect with ourselves and our environment and learn how to better combat the cold. The cold is beneficial for health because it enhances blood and lymph circulation, strengthens immunity, helps to get to sleep in the evening, and has favourable effects on thermoregulation.
